1 SUMMARY OF OPPORTUNITY

1.1 ACQUISITION AUTHORITY

RCW 79A.05.225 authorizes the Washington State Parks and Recreation Commission to plan, construct, and maintain suitable facilities for winter recreational activities.

Under the authority of RCW 79A.05.225 State Parks may directly negotiate and enter into agreements. While competition is not required it is also not prohibited and State Parks is choosing to perform a competition to help determine which service provider (a.k.a. Contractor) is in the best interest of State Parks.

Duration of Contractual Relationship: State Parks plans a potential 10-year relationship broken into two fixed 5-year terms. Prior to the end of the first fixed 5-year term, State Parks and the awarded contractor will meet to discuss entering into a subsequent 5-year term, but a shorter period is allowed, and this will be accomplished via bilateral and mutual negotiation. Prior to the end of the initial up to 10-year relationship State Parks will engage the public meaning the trail grooming and/or snow removal community via a set of Requests for Information and/or other communication streams to gauge if in State Parks opinion there is any meaningful business operations and availability to warrant a new competition. If so, State Parks will compete and if not, a new up to 5-year term with the current contractor will be attempted. Community engagement would be on a similar cycle to gauge business operations and availability prior to a new up to 5-year term with the current contractor. This process may continue unless/until State Parks deems it beneficial to compete or the parties are unable to mutually negotiate a new up to 5-year term.

It is State Parks' expectation that this competition will result in a contract with a Bidder that meets the objectives herein.

1.2 INTRODUCTION

The Washington State Parks and Recreation Commission's Winter Recreation Program (Agency, State Parks or WSPRC) is seeking proposals from qualified firms to provide winter maintenance service on designated trail systems in Washington State.

SOW, Maps, and Special Terms: See Section 2 – Submittals and Appendices.

The successful proponent will be awarded a five-year contract to provide winter maintenance services as explained in the scope of work for five winter seasons (typically December 1 through March 31), beginning December 1 and ending April 30.

Capacity: Proponents that respond to more than one RFP, or hold existing winter maintenance services contracts, must explain within their responses how they would provide winter maintenance services in more than one area, in the event that they are selected as the successful proponent in more than one area.

Proposals will be evaluated based upon factors that include but are not limited to:

- a) The description of the equipment to be used (with photos).
- b) Equipment failure back-up plan.
- c) The demonstrated proof of ownership or control of the equipment.
- d) The hourly price of each piece of equipment.
- e) Experience of the Bidder.
- f) Plan of operations.
- g) Capacity of the firm to carry out the contract.

-
- h) Subcontracting not Authorized Statement and Acknowledgement.
 - i) OMWBE/Small, Veteran and diverse businesses.
 - j) Letters of Reference (fresh set).

1.3 **SMALL AND DIVERSE BUSINESS PARTICIPATION:**

State Parks strongly encourages the participation of minority and women-owned businesses, Veteran owned businesses and small businesses, as prime Consultants or Subconsultants.

If you are a small business that needs assistance responding to this solicitation, help is available. Please visit OMWBE Small Business Assistance at <https://omwbe.wa.gov/small-business-assistance> to see the services offered. The Washington Procurement Technical Assistance Center (PTAC) is also available with no cost, confidential technical assistance for small businesses doing business with state government.

Minority and Women-Owned Businesses

In accordance with the legislative findings and policies set forth in Chapter 39.19 RCW, the State encourages participation in all of its contracts by firms certified by the Office of Minority and Women's Business Enterprises (OMWBE). Participation may be either on a direct basis in response to this solicitation or on a Subconsultant basis. Bidders may go to <https://omwbe.wa.gov/directory-certified-businesses> to obtain information on certified firms.

SPECIAL NOTE: The U.S. Department of Defense funds a resource group generically called the **Procurement Technical Assistance Center (PTAC)**, which has multiple offices across the country. While these Centers do not speak for or supersede the competition document, the Centers can help a qualifying business in understanding and navigating the competition. Per WA-PTAC: "No cost, confidential, one-on-one technical assistance in all aspects of selling to federal, state, and local governments. We have eight locations across Washington State assisting small businesses with marketing to the government, solicitations, drawings, and other areas relating to government selling."

1.4 **BACKGROUND INFORMATION**

Washington State Parks' Winter Recreation Program has been in existence for 40 years and provides access to winter recreational opportunities for thousands of people across the state each winter. These recreational activities include cross-country skiing, snowmobiling, snow biking, snowshoeing, skijoring, dog-sledding, fat tire biking, and other snow-based activities carried out on lands owned by or administered by State Parks under agreements with other organizations. Over its life, the program has grown exponentially, and now includes 136 Sno-Park parking areas statewide for motorized and non-motorized trail access. Some Sno-Parks are shared by both motorized and non-motorized uses. Associated with these Sno-Parks are more than 3,000 miles of winter trails that are provided and maintained in cooperation with federal, state, county and local agencies, snowmobile clubs, ski clubs, private landowners and contractors. State Parks has also designated five snow-play areas that are serviced by Sno-Parks, providing access for tubing and other snow-based recreational activities.

The dramatic increase in recreational demand since inception of the program has necessitated an evolving management response to ensure that parking lots are constructed, maintained and plowed, restrooms provided, trails maintained and groomed, signs posted, rules enforced, conflicts resolved, and visitors kept informed. The successful proponent will be providing a valuable service to the public through the Winter.

5.1 SUBMISSION OF BID RESPONSE

Responses are due on: See Face-page for exact date and time
--

Washington State enacted law allowing for electronic alternatives to pen-to-paper wet-ink signature on hardcopy documents, meaning if WSPRC agrees to alternatives other than wet-ink signature (pen-to-paper) on hardcopy documents, these alternatives may be accepted by WSPRC and are legally binding. See RCW 1.80.

For purposes of this competition document, WSPRC is accepting a PDF scan (or similar representation) of the Bidder's wet-ink signature when and where a signature is required. **For clarity:** Print out the competition document, review it, include any other required document(s), complete where necessary, sign where you need to sign with a pen onto the paper, when you believe your bid response is ready to be submitted to WSPRC, **scan it as a PDF** file, review the PDF file one last time, and then attach the PDF file to your business email and send it to WSPRC. See also, Submittal A – Certification, Assurances, and Waiver, subsection O.

It is WSPRC's expectation that the Bidder's bid response email will contain an attachment with all of the required documents scanned as a PDF, including any required signatures.

Bidders are required to submit the bid response electronically by email/email attachment to the address below.

Send the bid response to: BidBox@parks.wa.gov.

The required information may be located at the top or bottom (header or footer) of each page, but the location should be consistent throughout.

6 EVALUATION AND AWARD

6.1 DETERMINATION OF RESPONSIVENESS

All Responses received by the stated deadline will first be reviewed by the Procurement Coordinator to ensure that the Responses appear to contain the information required in this competition document. Only Bid Responses that meet the requirements will be forwarded for further substantive review. Any Response that does not appear to contain all of the required information or any Bidder who does not meet the mandatory qualifications will be rejected as non-responsive and will be removed from further evaluation. However, the Procurement Coordinator has the right to waive minor informalities, and/or seek clarification if confused provided that neither alters the content of the Response.

WSPRC reserves the right to: (1) Waive any informality (WSPRC reserves the right to determine the actual level of Bidders' compliance with the requirements specified in this competition and to waive informalities in a bid). An informality is an immaterial variation from the exact requirements of the competition, having no effect or merely a minor or negligible effect on quality, quantity, or delivery of the supplies or performance of the services being procured.; (2) Reject any or all bids, or portions thereof; (3) Cancel the Competitive Solicitation and may re-solicit bids; and/or (4) Negotiate with the lowest responsive and responsible Bidder(s) (or Bidder with the most points) to determine if such bid can be improved.

6.1.1 Rejected Bids/Bidders & Rejection Notification & Rejection Response

This Rejection Response process is not governed by Washington's Administrative Procedures Act (APA), RCW 34.05, nor does it confer any additional rights above and beyond what the Bidder already enjoys as a taxpayer. The purpose of this process is to allow WSPRC to correct evaluation process errors and problems before a contract is executed.

WSPRC will perform a preliminary evaluation which is largely procedural. See Section 6.4.1 - Preliminary Evaluation (Procedural) and all of this section's subparts.

If WSPRC determines that a bid or Bidder must be rejected under 6.4.1 and/or subparts, WSPRC will send a rejection notification to the email address provided by the Bidder in the Bidder Profile form (Submittal B) and/or as a reply to the email that contained the bid response. WSPRC bears no responsibility for any issue or technological issue preventing actual receipt of the notification to the rejected Bidder.

Two Business-day Response Period: The Bidder may refute the rejection. The rejected Bidder must respond to the rejection within two (2) business-days following the day of rejection notification.

- The Bidder's Rejection Response **must be sent to** Contracts@parks.wa.gov.
- **Subject line must include** the bid's identification number and "Rejection". See the first page or footer for the bid's identification number.

Example email subject line: **325-052 Rejection**

- The Bidder must explain how and why WSPRC erred in rejecting the Bidder's bid under Section 6.4.1 - Preliminary Evaluation (Procedural).

WSPRC will consider the rejected Bidder's response, and if in WSPRC's opinion, it determines error on our part, the bid will be moved forward to further evaluation. If WSPRC determines it did not err, the bid will not be moved forward for evaluation.

The process detailed in this section (Section 6.1.1), does not supersede or displace the DEBRIEF process or PROTEST process. A Bidder may after the Announcement of Apparent Successful Bidder is announced, request a Debrief, and a Debrief is a prerequisite for a Protest. See Section 7.3 – Debriefing of Bidders and Section 7.4 – Protests for expanded details about the process and what WSPRC will recognize as legitimate.

6.2 GENERAL EVALUATION PROVISIONS

The evaluation process is designed to award a contract to the Bidder with the best quality attributes based on the selected evaluation criteria.

Evaluations of subjective material will be conducted by evaluation team. State Parks has sole discretion over the selection of evaluators and will make such selections based on each potential evaluator's knowledge, skills, and experience with the subject matter. Each evaluator will independently grade and score the Bidder's material based on their own independent judgment, and in accordance with the format noted below for each respective requirement. Evaluators will only evaluate the material contained in the Responses and will not incorporate outside material into their determinations. Each evaluator has sole discretion over his or her final scores.

Bidders should take every precaution to assure that all answers are clear, complete and directly responsive to each specific requirement.

6.3 RESERVATION ON EVALUATION

The Agency reserves the right to require that the Apparent Successful Bidder (ASB) provide within three (3) business days after request, satisfactory evidence of ability to have the services begin by December 1, 2023. Failure to provide satisfactory evidence may be grounds for submittal rejection.

6.4 EVALUATION STEPS

6.4.1 Preliminary Evaluation (Procedural)

- a) Did the bid response arrive by the due date (deadline) to the proper location? Pass/Fail.
- b) Did the Bidder, on behalf of the Bidder's Firm, appear to bind the company to the commitment of the competition (manifestation of assent)? Pass/Fail. Acceptable manifestations of assent may include:
 - Is the bid signed by an individual (a person and NOT a group or team)) with a wet-ink signature albeit provided as a PDF scan, photo, or other similar visual copy representation?
- c) Did the Bidder appear to provide and complete the information requested? Pass/Fail.
- d) Does the Bidder appear to accept the WSPRC terms and conditions without reservation? Pass/Fail.
- e) Does the Bidder, under penalty of perjury, certify it is not a Wage violator (see Certification - Wage Theft Prevention)? Pass/Fail.
- f) Does the Bidder, under penalty of perjury, certify it supports worker's rights (see Certification - Supporting Workers' Rights)? Pass/Fail.

-
- g) If submittals were required, were the submittals provided and do they appear to be complete so that the bid could be compared to other conforming bids? Pass/Fail.
- h) If any bid is rejected at this stage, send a Rejection Letter to the Bidder's email address provided by the Bidder in the Submittal B – Bidder Profile. See also Section 6.1.1 – Rejected Bids/Bidders & Rejection Notification & Rejection Response. Wait out the time period to submit a rejection response and if one is received, consider if the earlier decision stands or if the Bidder presents a credible case for inclusion into the evaluation. Otherwise, advance the bid(s) to Section 6.4.2 – Substantive Evaluation: Phase 1.

6.4.2 Substantive Evaluation: Phase 1

THIS PART IS DONE BY THE CONTRACTS, GRANTS AND PROCUREMENT TEAM:

- a) Preferences and penalties: Preferences and penalties that are required by law, rule, or competition document will be applied to bid pricing. A preference reduces the Bidder's stated price by the amount of the preference and is an advantage to the Bidder. A penalty increases the Bidder's stated price by the amount of the penalty and is a disadvantage to the Bidder. *Preferences and penalties are applied to the pricing for evaluation purposes only but are not applied for purchasing purposes if awarded the contract.*
- Determine Reciprocity under [RCW 39.26.271](#), [WAC 200-300-075](#), [DES Reciprocity Information](#), [DES Reciprocity Map \(list\)](#). Determine the business address from which the bid was submitted. Check the DES Reciprocity Map (list) to determine, for evaluation purpose only, if the bid's pricing must be increased or rejected.
 - Determine Polychlorinated Biphenyls (PCB):

THIS PART(S) IS DONE BY THE CUSTOMER AND/OR CUSTOMER EVALUATION TEAM:

- b) If submittals were required, were the submittals provided and were they materially complete so that the material aspects of the bid response can be compared to other conforming bids? Pass/Fail. If a points methodology is being used instead of a pass/fail methodology, then determine the points.
- c) Determine the low bid; use subtotal value. If a points methodology is being used instead of low bid methodology, then determine the points.
- d) References: If not waived by WSPRC, do the references reflect good customer service and good product quality, and no meaningful apprehension from using this Firm in the future? Pass /Fail. If a points methodology is being used instead of a pass/fail methodology, waiver is not allowed, WSPRC must determine the points.
- e) Responsibility of the Bidder: In determining the responsibility of the Bidder, WSPRC may also consider: [RCW 39.26.160 Bid awards—Considerations—Requirements and criteria to be set forth—Negotiations—Use of enterprise vendor registration and bid notification system](#). If considered then Pass/Fail.
- f) Upon determining the lowest priced responsive and responsible Bidder (or responsive and responsible Bidder with the most points), perform the Announcement of ASB UNLESS the Substantive Evaluation: PHASE 2 (optional) is used.

6.4.3 Substantive Evaluation: Phase 2 (Optional)

- a) Following PHASE 1 if WSPRC so chooses, the lowest priced responsive and responsible Bidder (or responsive and responsible Bidder with the most points) may be required to appear in some form and/or present additional materials to validate to the WSPRC that the services or items offered meets the WSPRC's needs and meets all other competition terms & conditions. If WSPRC

requests materials it deems necessary to validate the services or item offered, the materials must be provided within five (5) business days or face possible elimination. The Bidder WILL NOT be allowed to materially change its bid response and the examination will be limited to the validation of the item and/or services offered. If WSPRC in its sole discretion determines that the Bidder's bid does not meet the WSPRC needs and/or other competition terms & conditions, the Bidder's bid response will be rejected and the next lowest responsive and responsible (or responsive and responsible Bidder with the most points) bid response may be considered. This process may repeat itself until an Apparent Successful Bidder (ASB) is determined or the competition is cancelled.

- b) Upon determining the lowest priced responsive and responsible Bidder (or responsive and responsible Bidder with the most points), perform the Announcement of ASB.

6.5 SELECTION OF APPARENT SUCCESSFUL BIDDER

Note: The Bidder meeting all responsive criteria and having the lowest costs (or, highest final cumulative score) will be selected as the Apparent Successful Bidder (ASB).

WSPRC will notify the Apparent Successful Bidder, and the non-successful Bidders, via email to the address provided in the Bidder Profile (Submittal B) - Primary Contact Person for Questions/Contract Negotiations.

7 ANNOUNCEMENT OF APPARENT SUCCESSFUL BIDDER, PUBLIC DISCLOSURE, DEBRIEF, AND PROTESTS

7.1 ANNOUNCEMENT OF APPARENT SUCCESSFUL BIDDER

Notification that a Firm(s) was selected as the ASB simply means that at this point in time WSPRC believes the ASB was the lowest cost responsive and responsible Bidder, but designation as the ASB is not a guarantee of a contract and/or WSPRC Purchase Order, or purchase. WSPRC reserves the right to reevaluate the ASB's bid and determine whether the ASB's bid was responsive and responsible and successful as first thought. ASBs are cautioned not to commit funds, resources, and effort prior to receiving an actual executed contract and/or WSPRC Purchase Order. Bidders and ASBs that commit funds, resources, and effort prior to a contract and/or WSPRC Purchase Order do so at its own risk and peril.

Following the announcement of the ASB, Bidders may request a Debrief conference. The Bidder will have a short period of time to request the Debrief conference. NOTE: A Debrief conference is a mandatory prerequisite for any Bidder desiring to protest the award.

APPENDIX A – STATEMENT OF WORK (SNOW PLOWING AND REMOVAL)

INTRODUCTION

The Washington State Parks and Recreation Commission's Winter Recreation Program (State Parks or the Agency) is seeking proposals from qualified firms to provide snow plowing and removal services for all access roads and to clear winter parking areas at: Cougar & Marble Mountain Sno-Parks, the Trail of Two Forests Sno-park; and along USFS 90 Road from the Northwoods Fire Station to Curley Creek road intersection. The locations are on the south side of Mount St. Helens in Skamania County WA.

The successful proponent will be awarded a five-year contract to provide Snow Plowing and Removal services for five winter seasons (typically December 1 through March 31), beginning December 1, 2023, and ending April 30, 2028. The contract will require the selected contractor to plow and remove snow from Sno-Park parking areas at: Marble Mountain (main parking lots at Shelter and overflow lot to the south); Cougar; Trail of Two Forests; and plow all access roads identified on the map of the Appendix D.

Capacity: This Request for Proposals (RFP) is the second of two (2) Snow Plowing and Removal RFPs that are being released by the Winter Recreation Program this year seeking services. ***Proponents that respond to more than one RFP, or hold existing contracts, must explain within their responses how they would provide snow plowing and removal services in more than one area, in the event that they are selected as the successful proponent in more than one area.***

Please note this RFP has additional equipment requirements above and beyond our standard snow plowing and removal RFP's, as noted below:

Due to the unique and difficult winter conditions at these Sno-Park areas, at a minimum, the Contractor must provide a snow blower of at least 300 horsepower, and a road grader with front plow blade in addition to an adjustable moldboard, or large loader with adjustable wings or similar equipment to accomplish the work efficiently. In addition, the Contractor must provide all other necessary equipment (snow plows, dump trucks, loaders and dozers), to accomplish the required services.

Washington State Parks' Winter Recreation Program has been in existence for 40 years and provides access to winter recreational opportunities for thousands of people across the state each winter. These recreational activities include cross-country skiing, snowmobiling, snow biking, snowshoeing, skijoring, dog-sledding, fat tire biking, and other snow-based activities carried out on lands owned by or administered by State Parks under agreements with other organizations. Over its life, the program has grown exponentially, and now includes 136 Sno-Park parking areas statewide for motorized and non-motorized trail access. Some Sno-Parks are shared by both motorized and non-motorized uses. Associated with these Sno-Parks are more than 3,000 miles of winter trails that are provided and maintained in cooperation with federal, state, county and local agencies, snowmobile clubs, ski clubs, private landowners and contractors. State Parks has also designated five snow-play areas that are serviced by Sno-Parks, providing access for tubing and other snow-based recreational activities.

The dramatic increase in recreational demand since inception of the program has necessitated an evolving management response to ensure that parking lots are constructed, maintained and

APPENDIX A – STATEMENT OF WORK (SNOW PLOWING AND REMOVAL)

plowed, restrooms provided, trails maintained and groomed, signs posted, rules enforced, conflicts resolved, and visitors kept informed. The successful proponent will be providing a valuable service to the public through the Winter.

GENERAL

The successful proponent will be required to perform the following work or provide the following services for five winter seasons (operationally, from December 1 through March 31), beginning December 1, 2023, and ending April 30, 2028 (contractually).

The successful respondent shall be required to provide snow plowing and removal services at the following locations:

SKAMANIA COUNTY SNO-PARKS:

1. **Cougar Sno-Park:** directions, East of Cougar via Lewis River Road on USFS Road #83, 6 miles. Plow entry roads and 30 spaces in parking lot. Estimated total road access mileage plowed in an “average” winter is 6 miles.
2. **Marble Mountain Sno-Park:** directions, East of Cougar via Lewis River Road on USFS Road #83. Plow entry and 230 spaces in parking lots. Estimated total road access mileage plowed in an “average” winter is 3 miles above Cougar Sno-Park.
3. **Trail of Two Forests Sno-Park:** East of Cougar via Lewis River Road on USFS Road #83 near junction of the USFS road #8303. Plow short access road and 12 spaces.
4. **USFS 90 Road Northwoods Fire Station to Curley Creek Road:** directions, east of the town of Northwoods WA on the east end of the Swift Reservoir, on the USFS 90 Road. Estimated total access road plowing mileage in an “average” winter is 3.5 miles.

Proponents are responsible to view these properties, know their locations and determine the snow plowing and removal methodology for each site. See Appendix D for locations of maps and aerial photos.

For reference, please read Parks Operating Procedure # 85-08 Snow Removal and WR -107 Snow Removal Standards.

SUBCONTRACTING IS NOT AUTHORIZED WITHOUT THE EXPRESSED WRITTEN APPROVAL OF WSPRC. **Note:** The Bidder’s bid response must assume subcontracting is not available and stand on its own merit without the use of subcontracting services.

FUTURE WINTER SEASONS

The budgets for the following winter seasons will be determined in July or August of each year of the contract, based upon available revenues and the annual recommendations of the Snowmobile Advisory Committee (SMAC). PLEASE NOTE: There is no guarantee that the funding level available for the coming seasons will be the same as in the past. Funding reductions or increases are possible, and continuation of the contract will be dependent upon the availability of funding.

The SMAC approved the 2023/24 season budget for this contract area for a maximum of \$79,682.00.

Approved by SMAC 7/31/2010

**Operating Procedure 85-08
Snow Removal Updated:
April 6, 2010**

Purpose: To provide standards for snow removal from roads and parking areas.

Rationale: Consistent snow removal enables the public to safely access roads and parking areas while protecting the road and parking lot surfaces.

Issues:

- Removing snow to maintain safe public access over roads and parking areas during the winter recreation season requires flexibility, responsiveness and attention to detail.
- Being responsible to land owners to ensure preservation of roads and parking areas and the surrounding natural resources.
- Public complaints regarding the lack of or excessive snow removal on roads and parking areas.
- Extreme weather events may dictate the frequency and duration of snow removal activities.
- Funding levels may dictate the frequency and duration of snow removal activities.

Considerations:

- US Forest Service standards, Public Works Departments guidelines, WA Dept of Transportation criteria, or other land owners and/or operators experience.
- Road and parking area surfaces (paved/dirt/gravel).
- Amount and type of snow
- Operator equipment
- Funding
- Government agency plowing priority

Best Practices:

1. Equipment (may include but not limited to):
 - Dump truck with plow blade;
 - Dump truck with blower;
 - Front end loader with bucket converted to blade converted to blower;
 - Grader with blade;

Washington State Parks and Recreation Commission and "Name of Awarded Contractor"

This Contract is made and entered into by and between Washington State Parks and Recreation Commission, hereinafter referred to as the "State Parks", and the below-named firm, hereinafter referred to as "Contractor."

INTRODUCTION

Via a competition under number xxx-xxx, Washington State Parks and Recreation Commission (STATE PARKS) sought a set of qualified consulting firms in the area of Snowmobile Trail Grooming Services.

PURPOSE

The purpose of this contract is to enable State Parks to utilize a on-call task order-based contract for Snowmobile Trail Grooming Services in the "Project Area" that was competed under RFQ xxx-xxx.

ACQUISITION AUTHORITY

This contract is established in accordance with RCW 39.26.070, the purpose is to establish a Convenience Use contract to procure the "as needed" goods and/or services as described herein. A Convenience Use Contract (official statutory name) is a form of Indefinite Delivery, Indefinite Quantity (IDIQ) contract, and may also be called an on-call contract. The agency at all times reserves the right to separately compete for similar/same products or services during the life of the Convenience Use contract.

Currently, STATE PARKS has delegated authority for services in the amount of \$1,000,000 per contract event. Per policy DES—090-00, section 6, subsection c: General Delegated Authority dollar amounts are not cumulative; the dollar amounts apply to each contract term or to each purchase event (such as Task Orders). As an additional risk mitigation safeguard, purchases under the authority of this contract will be structured and made to ensure that STATE PARKS does not exceed the \$1,000,000 dollar threshold during any given period of time. If there is \$1,000,000 in play, STATE PARKS will hold/suspend on placing a new Task Order until an earlier Task Order is accepted and paid, thus creating additional spending room up to the then current delegated spending authority (currently set at \$1,000,000).

Additional Authority: WA Office of Financial Management, State Administrative & Accounting Manual, Section 10.10, part 4. Travel management requirements and restrictions applies to "contractors, unless there are specific contractual arrangements modifying travel reimbursement." This contract contains or may employ specific contractual arrangements within the Task Order.

SPECIAL CONDITIONS

- A. Exhibit A, attached hereto and incorporated by reference, contains the General Terms and Conditions governing work to be performed under this contract, the nature of the working relationship between State Parks and the Contractor, and specific obligations of both parties.
- A. **AUTHORIZED SERVICES (WHAT'S IN SCOPE):** The Contractor will provide services and staff, and otherwise do all things necessary for or incidental to the performance of work, as set forth below:

The Contractor shall provide snowmobile trail grooming services in the vicinity of Republic, WA. The primary purpose of trail grooming includes but not limited to, smoothing out and compacting high-use trails, eliminating moguls and rough areas, and creating a safe riding surface. Trail grooming also requires clearing downed trees from the trail after windstorms and heavy snow events, and ensuring the trail is safe for winter recreation. The Contractor shall provide snowmobile trail grooming services as set forth and made part of this agreement as *Attachment A WR-108 Grooming Standards*, and as *Attachment B-Operating Procedure #85-09*.

Global Positioning System

The contractor shall cooperate with the Agency in the installation and utilization of a GPS progress tracking system acceptable to the Agency that provides a time-stamped and dated report providing on-trail grooming progress as evidence that the grooming machine was on the trail and to support the grooming reported in the contractors Grooming Logs when claiming payment for grooming services. The contractor will provide to the Agency and the Grooming Coordinator access to the contractors GPS data for viewing at any time, and the system shall include real time tracking capability. The contractor understands that the Agency may provide the public with time-delayed access to this information via the Agency's website. The Agency, at its discretion, may provide financial assistance to the contractor for the procurement, installation and operation of such equipment during annual budget deliberations, or may supply the equipment directly to the contractor to install and utilize.

Due to fluctuating seasonal budgets, each task order will be depended on the seasonal capabilities allowed by each season's budget limitations. Each task order will be executed before each winter season begins, detailing the services State Parks will be needing/allowed for the corresponding winter season.

Due to the nature of this contract as "on-call services" State Parks and the Contractor agree that prior to authorizing any work under this contract; the following elements will be discussed and agreed to:

- Each item of work under this agreement will be provided **ONLY** by Task Order. Each Task Order will be individually negotiated with the Contractor. Each Task Order will be considered a separate contract, identifying the maximum amount authorized, start date and end date, and scope of work specific to the task. Each Task Order will be submitted on State Parks' approved form (an sample is attached and made part of this agreement as Exhibit B). The terms of the Task Order cannot be modified without written approval from State Parks and the Contractor. Any work performed outside of the terms and conditions of the Task Order will not be considered for reimbursement.

- The capabilities of the Contractor to provide or facilitate the execution of defined deliverables as needed to complete the project within agreed to timelines and conditions.
- The products, permits and/or other deliverables to be provided to State Parks for the project assigned. State Parks and the Contractor agree to meet on a case-by-case basis, discuss project objectives and deliverables, compensation terms and project timelines to include initial site visits as needed.
- Agreement on points of contact, lead staff and communication methods and schedules to be applied to the project assigned.
- The estimated total hours and budget to be allocated by State Parks to the Contractor and the project assigned. Requests to exceed total project budget and/or modification of agreed to deliverables must be agreed to by the parties to this agreement and be in writing by State Parks.

B. The Contractor shall produce the following written reports or other written documents (deliverables) by the dates indicated within each Task Order.

PERIOD OF PERFORMANCE

The period of performance under this contract will be from the date of execution through June 30, 2027, unless otherwise amended in writing.

COMPENSATION

This is an as needed On-Call Contract. Compensation will be addressed using individual Task Orders. State Parks will not allow this contract to exceed its then current delegation of authority at any given point in time. See also Acquisition Authority above for expanded details on delegation of authority.

At the completion of each Task Order, the Contractor must submit completed clean originals of the following documentation and information to the Agency Representative, which are attached hereto and incorporated by reference:

- a) An invoice voucher, FORM A19-1A (provided by the Agency), containing a statement of the Contractor's charges in providing services; and
- b) Thoroughly completed original daily trail grooming and operation logs, FORM WR-203 (as provided by the Agency).
- c) At the end of the season, a thoroughly completed clean original trail grooming season totals logs, FORM WR-202 (as provided by the Agency).

The budgets for the winter seasons will be determined in July or August of each year of the contract, based upon available revenues and the annual recommendations of the Snowmobile Advisory Committee (SMAC). PLEASE NOTE: There is no guarantee that the funding level available for the coming seasons will be the same as in the past. Funding reductions or increases are possible which will be reflected through Task Orders, and continuation of the contract will be dependent upon the availability of funding.

The rates indicated below shall remain in effect with the ability of a yearly 2.5% inflation increase, unless amended in writing and agreed to by both parties via the amendment process.

EXPENSES

Contractor shall receive reimbursement for travel and other expenses as authorized in advance by State Parks as reimbursable. Such expenses may include transportation, lodging, and subsistence as necessary during periods of required travel. Contractor shall receive compensation for travel expenses at current state travel reimbursement rates.

BILLING PROCEDURES AND PAYMENT

State Parks will pay Contractor upon acceptance of services provided and receipt of properly completed invoices, which shall be submitted to the Contract Manager not more often than monthly.

The invoice shall include the contract number at a minimum. If expenses are invoiced, provide a detailed breakdown of each type. A receipt must accompany any single expenses in the amount of \$50.00 or more in order to receive reimbursement.

Payment shall be considered timely if made by State Parks within thirty (30) calendar days after receipt of properly completed invoices. Payment shall be sent to the address designated by the Contractor.

State Parks may, in its sole discretion, terminate the contract or withhold payments claimed by the Contractor for services rendered if the Contractor fails to satisfactorily comply with any term or condition of this contract.

No payments in advance or in anticipation of services or supplies to be provided under this contract shall be made by State Parks.

It is agreed by State Parks and the Contractor that If the Contractor does not timely provide or perform the requirements referred to or listed in the scope of work, damage to State Parks will result. The damages to State Parks resulting from the same would be difficult or impractical to ascertain. The liquidated damages specified herein represent a good faith effort to quantify the harm that could reasonably be anticipated at the time of the making of the contract. The damages provided in this section are just and reasonable. Therefore, State Parks and the Contractor agree that if the Contractor does not meet the mutually agreed upon performance or deliverable dates as a result of Contractor's actions(s) or failure to act, then there shall be assessed against the Contractor, as the amount of actual damages incurred by the state as a result of the Contractor's failure to perform, shown in *Attachment C-Liquidated Damages*. State Parks may, at its discretion, and after notifying the Contractors, withhold the assessed liquidated damages from payments to the Contractor, or invoice the Contractor therefore, in which case the Contractor shall pay said damages within 30 days of the date of invoice. Nothing in this provision shall be construed as relieving the Contractor from performing all Contract requirements. Moreover, State Parks reserves the right to enforce or to seek other remedies without limitation for failure of the Contractor to perform any contract duty pursuant to this Contract.

Furthermore, any alteration, amendment, modification, or waiver or any clause or condition of this contract is not effective or binding unless made in writing and signed by the Agent.

NONCOMPLIANCE WITH NONDISCRIMINATION LAWS

In the event of the Contractor's non-compliance or refusal to comply with any nondiscrimination law, regulation, or policy, this contract may be rescinded, canceled, or terminated in whole or in part, and the Contractor may be declared ineligible for further contracts with State Parks. The Contractor shall, however, be given a reasonable time in which to cure this noncompliance. Any dispute may be resolved in accordance with the "Disputes" procedure set forth herein.

NONDISCRIMINATION

During the performance of this contract, the Contractor shall comply with all federal and state nondiscrimination laws, regulations, and policies.

PRIVACY

Personal information including, but not limited to, "Protected Health Information," collected, used, or acquired in connection with this contract shall be protected against unauthorized use, disclosure, modification or loss. transfer, sell, or otherwise make known to unauthorized persons personal information without the express written consent of State Parks or as otherwise required by law.

Any breach of this provision may result in termination of the contract and the demand for return of all personal information. The Contractor agrees to indemnify and hold harmless State Parks for any damages related to the Contractor's unauthorized use of personal information.

PUBLICITY

The Contractor agrees to submit to State Parks all advertising and publicity matters relating to this contract wherein State Parks' name is mentioned or language used from which the connection of State Parks' name may, in State Parks' judgment, be inferred or implied. The Contractor agrees not to publish or use such advertising and publicity matters without the prior written consent of State Parks.

RECORDS MAINTENANCE

The Contractor shall maintain books, records, documents, data, and other evidence relating to this contract and performance of the services described herein, including, but not limited to accounting procedures and practices that sufficiently and properly reflect all direct and indirect costs of any nature expended in the performance of this contract.

Contractor shall retain such records for a period of six years following the date of final payment. At no additional cost, these records, including materials generated under the contract, shall be subject at all reasonable times to inspection, review, or audit by State Parks, personnel duly authorized by State Parks, the Office of the State Auditor, and federal and state officials so authorized by law, regulation, or agreement.

If any litigation, claim, or audit is started before the expiration of the six (6) year period, the records shall be retained until all litigation, claims, or audit findings involving the records have been resolved.

REGISTRATION WITH DEPARTMENT OF REVENUE

The Contractor shall complete registration with the Washington State Department of Revenue and be responsible for payment of all taxes due on payments made under this contract.

RIGHT OF INSPECTION

The Contractor shall provide right of access to its facilities to State Parks, or any of its officers, or to any other authorized agent or official of the state of Washington or the federal government, at all reasonable times, in order to monitor and evaluate performance, compliance, and/or quality assurance under this contract.

SAVINGS

In the event funding from state, federal, or other sources is withdrawn, reduced, or limited in any way after the effective date of this contract and prior to normal completion, State Parks may terminate the contract under the "Termination for Convenience" clause, without the ten-day notice requirement, subject to renegotiation at State Parks' discretion under those new funding limitations and conditions.

SEVERABILITY

The provisions of this contract are intended to be severable. If any term or provision is illegal or invalid for any reason whatsoever, such illegality or invalidity shall not affect the validity of the remainder of the contract.

SITE SECURITY

While on State Parks premises, Contractor, its agents, employees, or subcontractors shall conform in all respects with physical, fire or other security policies or regulations.

SUBCONTRACTING

Neither the Contractor nor any Subcontractor shall enter into subcontracts for any of the work contemplated under this contract without obtaining prior written approval of State Parks. In no event shall the existence of the subcontract operate to release or reduce the liability of the contractor to the Department for any breach in the performance of the contractor's duties. This clause does not include contracts of employment between the contractor and personnel assigned to work under this contract.

Additionally, the Contractor is responsible for ensuring that all terms, conditions, assurances, and certifications set forth in this agreement are carried forward to any subcontracts. Contractor and its subcontractors agree not to release, divulge, publish, transfer, sell, or otherwise make known to unauthorized persons personal information without the express written consent of State Parks or as provided by law.

TAXES

All payments accrued because of payroll taxes, unemployment contributions, any other taxes, insurance, or other expenses for the Contractor or its staff shall be the sole responsibility of the Contractor.

TERMINATION FOR CAUSE

In the event State Parks determines the Contractor has failed to comply with the conditions of this contract in a timely manner, State Parks has the right to suspend or terminate this contract. Before suspending or terminating the contract, State Parks shall notify the Contractor in writing of the need to take corrective action. If corrective action is not taken within 30 calendar days, the contract may be terminated or suspended.

In the event of termination or suspension, the Contractor shall be liable for damages as authorized by law including, but not limited to, any cost difference between the original contract and the replacement or cover contract and all administrative costs directly related to the replacement contract, e.g., cost of the competitive bidding, mailing, advertising and staff time.

State Parks reserves the right to suspend all or part of the contract, withhold further payments, or prohibit the Contractor from incurring additional obligations of funds during investigation of the alleged compliance breach and pending corrective action by the Contractor or a decision by State Parks to terminate the contract. A termination shall be deemed a "Termination for Convenience" if it is determined that the Contractor: (1) was not in default; or (2) failure to perform was outside of his or her control, fault, or negligence. The rights and remedies of State Parks provided in this contract are not exclusive and are, in addition to any other rights and remedies, provided by law.

TERMINATION FOR CONVENIENCE

Except as otherwise provided in this contract, State Parks may, by 10 calendar days written notice, beginning on the second day after the mailing, terminate this contract, in whole or in part. If this contract is so terminated, State Parks shall be liable only for payment required under the terms of this contract for services rendered or goods delivered prior to the effective date of termination.

TERMINATION PROCEDURES

Upon termination of this contract, State Parks, in addition to any other rights provided in this contract, may require the Contractor to deliver to State Parks any property specifically produced or acquired for the performance of such part of this contract as has been terminated. The

provisions of the "Treatment of Assets" clause shall apply in such property transfer.

State Parks shall pay to the Contractor the agreed upon price, if separately stated, for completed work and services accepted by State Parks, and the amount agreed upon by the Contractor and State Parks for (i) completed work and services for which no separate price is stated, (ii) partially completed work and services, (iii) other property or services that are accepted by State Parks, and (iv) the protection and preservation of property, unless the termination is for default, in which case the Agent shall determine the extent of the liability of State Parks. Failure to agree with such determination shall be a dispute within the meaning of the "Disputes" clause of this contract. State Parks may withhold from any amounts due the Contractor such sum as the Agent determines to be necessary to protect State Parks against potential loss or liability.

The rights and remedies of State Parks provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

After receipt of a notice of termination, and except as otherwise directed by the Agent, the Contractor shall:

1. Stop work under the contract on the date, and to the extent specified, in the notice;

LIMITATION OF AUTHORITY -- Only the Agent shall have the express, implied, or apparent authority to alter, amend, modify, or waive any clause or condition of this contract. Furthermore, any alteration, amendment, modification, or waiver of any clause or condition of this contract is not effective or binding unless made in writing and signed by the Agent.

WAIVER OF DEFAULT -- Waiver of any default shall not be deemed to be a waiver of any subsequent default. Waiver of breach of any provision of the contract shall not be deemed to be a waiver of any other or subsequent breach and shall not be construed to be a modification of the terms of the contract unless stated to be such in writing, signed by the Agent and attached to the original contract.

CHANGES AND MODIFICATIONS -- The Agent may, at any time, by written notification to the Contractor and without notice to any know guarantor or surety, make changes in the general scope of the services to be performed under the contract. If any such changes cause an increase or decrease in the cost of, or the time required for the performance of this contract, an equitable adjustment may be made in the contract price or period of performance, or both, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this

clause must be asserted within thirty (30) days from the date of Contractor's receipt of the notice of such change; Provided, however, that the Agent may, upon determining that the facts justify such action, receive and act upon such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

TERMINATION PROCEDURE -- Upon termination of this contract State Parks, in addition to any other right provided in this contract, may require the Contractor to deliver to State Parks any property specifically produced or acquired for the performance of such part of this contract as has been terminated. The provisions of the "Treatment of Assets" clause shall apply in such property transfer.

State Parks shall pay to the Contractor the agreed upon price, if separately stated, for completed work and services accepted by State Parks, or the amount agreed upon by the Contractor and State Parks or (i) completed work and services for which no separate price is stated, (ii) partially completed work and services, (iii) other property or services which are accepted by State Parks, and (iv) the protection and preservation of property, unless the termination is for default, in which case the Agent shall determine the extent of the liability of State Parks. Failure to agree with such determination shall be a dispute within the meaning of the "Disputes": clause of this contract. State Parks may withhold from any amount due the Contractor such sum as the Agent determines to be necessary to protect State Parks against potential loss or liability.

The rights and remedies of State Parks provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

7. Take such action as may be necessary, or as the Agent may direct, for the protection and preservation of the property related to this contract which is in the possession of the Contractor and in which State Parks has or may acquire an interest.
