STEAMBOAT ROCK STATE PARK

WELCOME TO STEAMBOAT ROCK STATE PARK

A lush oasis in the desert

Steamboat Rock State Park is a beautiful camping park named for a columnar basalt rock butte that rises 800 feet above Banks Lake and visually dominates the main park.

Situated in the middle of the eastern Washington desert, the park offers lush, green lawns, rocks for climbing and freshwater lake swimming and boating for those who want respite from the hot summer sun. Miles of horse trails are open for day use, and a hiking trail leads to Northrup Lake, a natural forest area. Several watercraft launches are available.

Four campground areas and a large day-use area are on sweeping green lawns, protected from winds by tall, dramatic poplar trees. In the warm seasons, the surrounding areas are carpeted with wildflowers, adding to the gray-green brush of the Scablands landscape. In the winter, the park offers opportunities for Nordic skiing. The park lies within the larger Steamboat Rock State Park Recreation Area, which includes the Northrup Canyon Natural Area and Castle Rock Natural Preserve.
