

Pearrygin Lake Sno-Park Winter Grooming Report

March 8, 2025

The Pearrygin Lake Sno-Park winter trails are provided through a partnership between the Washington State Parks and Recreation Commission, the Washington State Department of Fish and Wildlife, and the dedicated trail groomers of Methow Fatbike. Please respect their time and efforts by being courteous to other trail users, respecting the conditions of use for this trail system, and respecting trail use designations and closures. Enjoy!

The grooming crew got out and groomed a few of the trails in Pearrygin Lake State Park last night. Trails are firm in the morning and conditions are excellent then. Now that we've entered the typical freeze/thaw spring weather pattern, the time window for effective grooming is very narrow and trail surfaces are very susceptible to unrepairable damage when they soften in the warmer temps. Please help us keep the trails in good shape as long as possible as the season begins to wind down by being extremely mindful of this and staying off the trail as they soften when the daytime temps rise.

Don't forget, a Washington State Sno-Park permit is required to park in any of the three trailhead parking lots located in Pearrygin Lake State Park and makes this trail system possible. No trail pass is required to use the trails, only for parking. The Sno-Park funds pay for the plowing of trailhead parking, grooming equipment and maintenance, grooming staff, and fuel for the snowmobiles we use for grooming. Sno-Park Permits can be purchased at Partners Mini-Mart, Methow Cycle & Sport, Goats Beard Mountain Supplies, and Winthrop Mountain Sports.

Pearrygin Lake State Park Winter Trails (Sno-Park Permit required to park at Pearrygin Lake State Park trailheads)		
Area	Date Groomed	Comments
Westside Rex Derr Trail	Mar 6th	Please stay off trails once they soften during the day
